ACADEMY

Workshops in Laser Medicine

LIGHTWALKER IN DENTISTRY

Locations:

LA&HA Institute
Ljubljana, Slovenia

Private practice
Muljava, Slovenia

Date

30.-31. May 2022

Overview

During this two day workshop participants learn the basic principles of using LightWalker laser system in a variety of non-surgical and surgical procedures within the field of dentistry. The practical and clinical advantages of lasers and laser-assisted treatments, and the effects of treatment parameter settings and variations thereof, will be explained in great detail and discussed by experienced laser practitioners based on real case materials. A selection of treatment procedures will be demonstrated on patients and volunteers.

Objectives

- Understand laser physics and laser-tissue interactions.
- Understand difference between Er: YAG and Nd:YAG laser effects on different tissues.
- Understand effects of the different parameters settings and how to identify ideal settings for specific conditions and applications.
- Learn how to gain maximum benefit for your practice out of Fotona laser systems.
- Learn tips and tricks from laser experts and peers.

All participating principle lecturers are certified Expert Clinical Lecturers of the Laser and Health Academy.

The **Laser and Health Academy** is an independent institution, developed and founded with Fotona's support, with the aim to advance medical, technical and scientific knowledge in the field of Lasers and their application in Medicine and Dentistry. It serves as a platform for exchange and dissemination of scientific knowledge among peers and to promote evidence-based laser medicine and dentistry among practitioners and the general public.

The Academy's key activities center on practical instruction and demonstration of laser techniques and procedures. These are delivered through a variety of workshops, seminars and specialized events either at the Laser and Health Academy's own training and demonstration facility or on-site at the Laser and Health Academy Lecturers' surgeries and clinics.

Visit www.laserandhealth.com for more information about the Academy's activities and more on the use of lasers in medicine and dentistry.

Places to stay

Ljubljana has a wide offering of accommodation offerings to suite everybody's taste, needs and budget. The following hotels are particularly popular with our workshop participants and are recommended by us. A wider offering of accommodation can be found on www.visitljubljana.si.

Pleasant and modern hotel just minutes' walk from the city center

The Union Hotels Collection features five hotels with different concepts, all on a top location in the city centre of Ljubljana, Slovenia.

Since 1964 **Fotona** has been a pioneering, laser technology company. Our laser systems are the result of over 55 years of experience and of our know-how and expertise in the fields of medicine, communications, industry and defense. When you choose Fotona you choose the highest performance, best-made laser systems in the world.

Ljubljana is considered a city which suits everyone from its inhabitants to its numerous visitors. It maintains the friendliness of a small town and at the same time possesses all the characteristics of a metropolis.

Due to its geographical position, Ljubljana also represents an ideal starting point to discover the amazingly diverse features and beauty of Slovenia.

www.ljubljana-tourism.si

Slovenia lies at the heart of Europe, where the Alps and the Mediterranean meet the Pannonian plains and the mysterious Karst. As a small, beautiful and picturesque country, Slovenia makes a great tourist destination.
