Laser & Health
ACADEMY

Workshops in Laser Medicine

LIGHTWALKER IN DENTISTRY

Locations:

LA&HA Institute,
Ljubljana, Slovenia

Private practice in
Muljava, Slovenia

Date:

27 - 28 May, 2019

Overview

The entire workshop consists of three individually available, thematic workshop programs covering the use of Fotona's laser systems in dentistry and aesthetic dentistry.

Participants learn the basic principles of using lasers in a variety of non-surgical and surgical procedures within the field of dentistry. The practical and clinical advantages of lasers and laser-assisted treatments, and the effects of treatment parameter settings and variations thereof, will be explained in great detail and discussed by experienced laser practitioners based on real case materials. A selection of treatment procedures will be demonstrated on patients and volunteers.

Objectives

- Understand laser physics and laser-tissue interactions.
- Understand the difference between Er:YAG and Nd:YAG laser effects on different tissues.
- Understand the effects of different parameters settings and how to identify ideal settings for specific conditions and applications.
- Learn how to gain the maximum benefit for your practice with Fotona laser systems.
- Learn tips and tricks from laser experts and peers.

All participating principle lecturers are certified Expert Clinical Lecturers of the Laser and Health Academy.

The **Laser and Health Academy** is an independent institution, developed and founded with Fotona's support, with the aim to advance medical, technical and scientific knowledge in the field of Lasers and their application in Medicine and Dentistry. It serves as a platform for the exchange and dissemination of scientific knowledge among peers and to promote evidence-based laser medicine and dentistry among practitioners and the general public.

The Academy's key activities center on practical instruction and demonstration of laser techniques and procedures. These are delivered through a variety of workshops, seminars and specialized events either at the Laser and Health Academy's own training and demonstration facility or on-site at the surgeries and clinics of Laser and Health Academy Lecturers.

Visit www.laserandhealth.com for more information about the Academy's activities and more on the use of lasers in medicine and dentistry.

Places to stay

Ljubljana has a wide range of accommodation offerings to suite everybody's taste, needs and budget. The following hotels are particularly popular with our workshop participants and are recommended by us. A wider offering of accommodations can be found on www.visitljubljana.si.

Pleasant and modern hotel just minutes' walk from the city center

Luxury, 4-star hotel offering an unforgettable stay in Slovenia's capital.

Since 1964 **Fotona** has been a pioneering, laser technology company. Our laser systems are the result of over 55 years of experience and of our know-how and expertise in the fields of medicine, communications, industry and defense. When you choose Fotona you choose the highest performance, best-made laser systems in the world.

Ljubljana is considered a city that suits everyone from its inhabitants to its numerous visitors. It maintains the friendliness of a small town and at the same time possesses all the characteristics of a metropolis.

Due to its geographical position, Ljubljana also represents an ideal starting point to discover the amazingly diverse features and beauty of Slovenia.

www.ljubljana-tourism.si

Slovenia lies at the heart of Europe, where the Alps and the Mediterranean meet the Pannonian plains and the mysterious Karst. As a small, beautiful and picturesque country, Slovenia makes a great tourist destination.
