

## The Fotona4D<sup>®</sup> Treatment Challenge

### Photo Guidelines

1. Send your photos as jpg or png files.
2. The resolution should be 300 dpi in a 1:1 ratio.
3. The photos should not be retouched.
4. There should be no logos or writing on the photos – information will be added by our designers.
5. Do not forget to obtain the patient's consent for publishing the photos.
6. Before and after photographs should be accompanied with data about the number of received sessions and the time since the last treatment when the image was taken.
7. Photograph headers: please name your photograph files as Figure 1, Figure 2, etc. and include a short header for each figure, e.g. "Figure 1: Baseline", "Figure 2: After second treatment session", "Figure 3: 6 months after end of treatment".

Example Fotona4D<sup>®</sup> case below:

Figure 1: Baseline.

Figure 2: After four treatment sessions.
